GLOBALVOX

Your Trusted Oracle Cloud Partner for Migration

ORACLE®
CLOUD INFRASTRUCTURE

Leverage GlobalVox's success stories in helping clients migrate seamlessly to Oracle Cloud Infrastructure (OCI) with ever-evolving approaches and methodologies

Cloud Migration

Using repeatable migration frameworks and industry-proven delivery methodologies, we can help you plan, design, deploy and optimize your cloud migration to help drive sustainable growth from start to finish.

Move beyond migration

Develop a business strategy to maximize cloud opportunities rather than simply initiating a cloud or data center migration IT transformation. We focus on radically rethinking how you address talent, culture, architecture and governance to successfully operate in the cloud.

Professional services

Our pool of certified experienced SMEs to provide consulting services for your tailored business needs

Why GlobalVox?

Business First Cloud Forward approach

Client driven approach with business and technology focus allows you to stay competitive. We take care of your Infrastructure migrations while you focus on your strategic business initiatives

Maximize ROI

Move away from fixed Infrastructure costs. Adapt to Gen-2 OCI Platform enabling elasticity, scalability, cost savings, resilience, hence creating value for your business applications

Minimize Risk

Our unique Infrastructure managed services can help your businesses minimize risks by providing expert security, performance, compliance, Disaster Recovery, High Availability Architecture, and cloud-based services, reducing the risk of business disruptions and data loss
