

Your Trusted Partner for Oracle Fusion Quarterly Updates

Safeguard your SaaS and PaaS landscape with GlobalVox' s tailored quarterly release support.

Key Challenges

- Oracle pushes quarterly updates with just 8–10 business days for testing.
- Missed validations can cause business disruption, compliance risks, and expensive downtime.
- Internal teams lack the bandwidth for structured testing every quarter.

Our Solution

- Impact Assessment of Oracle release notes.
- Documentation and Regression Testing of critical business flows.
- Key Integration and Report Validation for SaaS and PaaS landscapes.
- Cutover Readiness and 1-week Hypercare Support post-release.

Why GlobalVox?

- Impact Assessment of Oracle release notes.
- Documentation and Regression Testing of critical business flows.
- Key Integration and Report Validation for SaaS and PaaS landscapes.
- Cutover Readiness and 1-week Hypercare Support post-release.
